Sean,

I'll e-mail her and copy you.

Hope you don't think I'm nit-picking but mentioning the Army Corps Archeologist on-site while drilling and soil sampling would be good.

Hi Dan,

I haven't heard from Joanne yet. Should you or I call her and check in? I will make the edits you suggested.

Sean

Sean,

I wanted to check in as I was off the last two days (10/1 & 2). Did Joanne LaBaw ever respond to the report? If not,

I have some further comments as to the Report.

1. Page 5, Section 5.0 Limitations, second sentence please strike ...**"of the"**

To read: "GeoEngineers has performed .... at the McConkey/Sesko Site ...Kitsap County, Washington." ; and

2. Appendix A Field Procedures, Drilling and Soil Sampling: I recommend inserting a sentence stating:  
" An Army Corps Of Engineers Archeologist was on site during the drilling and soil sampling observing for any cultural resources that may be encountered during the soil boring operations."

That is all from me. Otherwise it looks great!  
Thanks.
